MOBILE DEVICE EVIDENCE RECOVERY SYSTEM

Continuous advancements in technology have made it increasingly difficult to recover evidence from lawfully seized mobile devices. Waynesboro Police Detectives would often have to wait weeks for other agencies to obtain evidence for us from these seized mobile devices

XRY is a software based solution, complete with all the necessary hardware for recovering data from mobile devices in a forensically secure manner. Now that we have this technology, our Detectives can obtain valuable evidence from lawfully seized mobile devices in a matter of minutes.

This investment in public safety was made possible in August 2016 because of the kindness of an anonymous donor who resides in the City of Waynesboro.

The Corporation is organized exclusively for charitable, educational and scientific purposes including, the making of distributions to organizations that qualify as exempt organizations under Section 501(c)(3) of the Internal Revenue Code.

TRAINING PISTOLS

Continuous training is vital to the success of the Waynesboro police department and its officers. Nowhere is that more crucial, and more difficult, than in the area of deadly force.

We have acquired a two-part solution to assist with our continuous training needs. The Glock 17R training pistols coupled with the Laserlyte training system will greatly enhance our deadly force training. Together they support effective and efficient training in marksmanship and use-of-force decision making.
